

## Universal 2 Series PD Pumps

### PRODUCT HIGHLIGHTS

**MADE IN USA**

### WHY SPX FLOW?

The Waukesha Cherry-Burrell brand U2 Series pumps are the pump of choice for Clean-In-Place, (CIP) applications. Introduced in 1995, the U2 series pumps have continued

to be the standard in the market, due to their capability to pump a wide range of low to viscous products (up to 1,000,000 cps), high efficiency, high-pressure applications up to 500 psi (34 bar) long service life and aftermarket support through our localized certified repair centers. SPX FLOW offers a complete range (15 sizes) and optional materials of construction of positive displacement pumps to meet your needs. When it comes to know-how, experience and product range within the field of hygienic pumps, you won't find a better business partner than SPX FLOW.

### FEATURES

- Conforms to 3-A, USDA, BISSC, EHEDG, CE, ASME standards
- 17-4 stainless steel standard shafts
- Manufactured in Delavan, WI - USA
- 316L body and cover
- Tight internal tolerances
- Rotor/Shaft connection sealed from product zone
- Waukesha Alloy 88 or 316L Rotors
- Double tapered roller bearings
- Up to 500 psi (34 bar) pressure capability
- Optional AL6XN construction
- Eccentric circumferential piston rotors
- Spur Gears

### BENEFITS

- Energy efficient
- CIP capable with flat sided bodies
- Longer run times between maintenance
- Long life construction
- Adaptable to a variety of products
- Improved corrosion resistance of optional materials of construction
